

## **Buckets of Blocks**

Dennis and Cody are building a castle out of plastic building blocks. They will need  $2\frac{1}{2}$  buckets of blocks for the castle they have in mind. Dennis used to have two full buckets of blocks but lost some and now has  $1\frac{3}{4}$  buckets. Cody used to have two full buckets of blocks too, but now has  $1\frac{1}{4}$  buckets. If Dennis and Cody combine their buckets of blocks, will they have enough to build their castle?
