

# Capacity Creature

**Materials:** Capacity creature template, scissors, glue, markers or crayons

---

1. Design a Capacity Creature. Cut out and color the pieces on your template.
2. Label the pieces and put them together to create a creature. Your creature must include 1 gallon, 4 quarts, 8 pints, and 16 cups.
3. Cut out extra shapes for other body parts as needed. Be creative!
4. Give your Capacity Creature a name. Write a one paragraph story about your creature that will help you remember how the units of measure are related.

Gallon
